The deposits were accompanied by: ☐ a scientific description ☒ a proposed taxonomic description indicated above.

The deposits were received November 4, 1992 by this International Depository Authority and have been accepted.

#### AT YOUR REQUEST:

☒ We will inform you of requests for the strains for 30 years.

The strains will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strains.

If the cultures should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with living cultures of the same.

The strains will be maintained for a period of at least 30 years after the date of deposit, and for a period of at least five years after the most recent request for a sample. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the cultures cited above was tested November 9, 1992. On that date, the cultures were viable.
